PARTNERSHIP FOR RESEARCH AND INNOVATION
IN THE MEDITERRANEAN AREA

PRIMA: an Introduction

PRIMA
PARTNERSHIP FOR RESEARCH AND INNOVATION
IN THE MEDITERRANEAN AREA

Challenges in the Mediterranean Area: at a glance

- Climate change
- Population growth and food security issues
- Water scarcity and overexploitation of natural resources
- Unsustainable agricultural practices
- Agro-biodiversity loss
- Lack of innovation in Mediterranean agro-food value chains

How to address these challenges?

ALIGNMENT OF NATIONAL R&I PROGRAMMES

Orientation of relevant national research and innovation programmes towards the implementation of the strategic agenda.

CRITICAL MASS OF ACTORS AND RESOURCES

Involvement of all relevant public and private sector actors in implementing the strategic agenda by pooling knowledge and financial resources to achieve the necessary critical mass.

STRENGTHENING R&I CAPACITIES

Strengthening of the research and innovation funding capacities and of the implementation capabilities of all actors involved including SMEs, academia, non-governmental organisations and local research centres.

PRIMA
PARTNERSHIP FOR RESEARCH AND INNOVATION
IN THE MEDITERRANEAN AREA

PRIMA Main Features

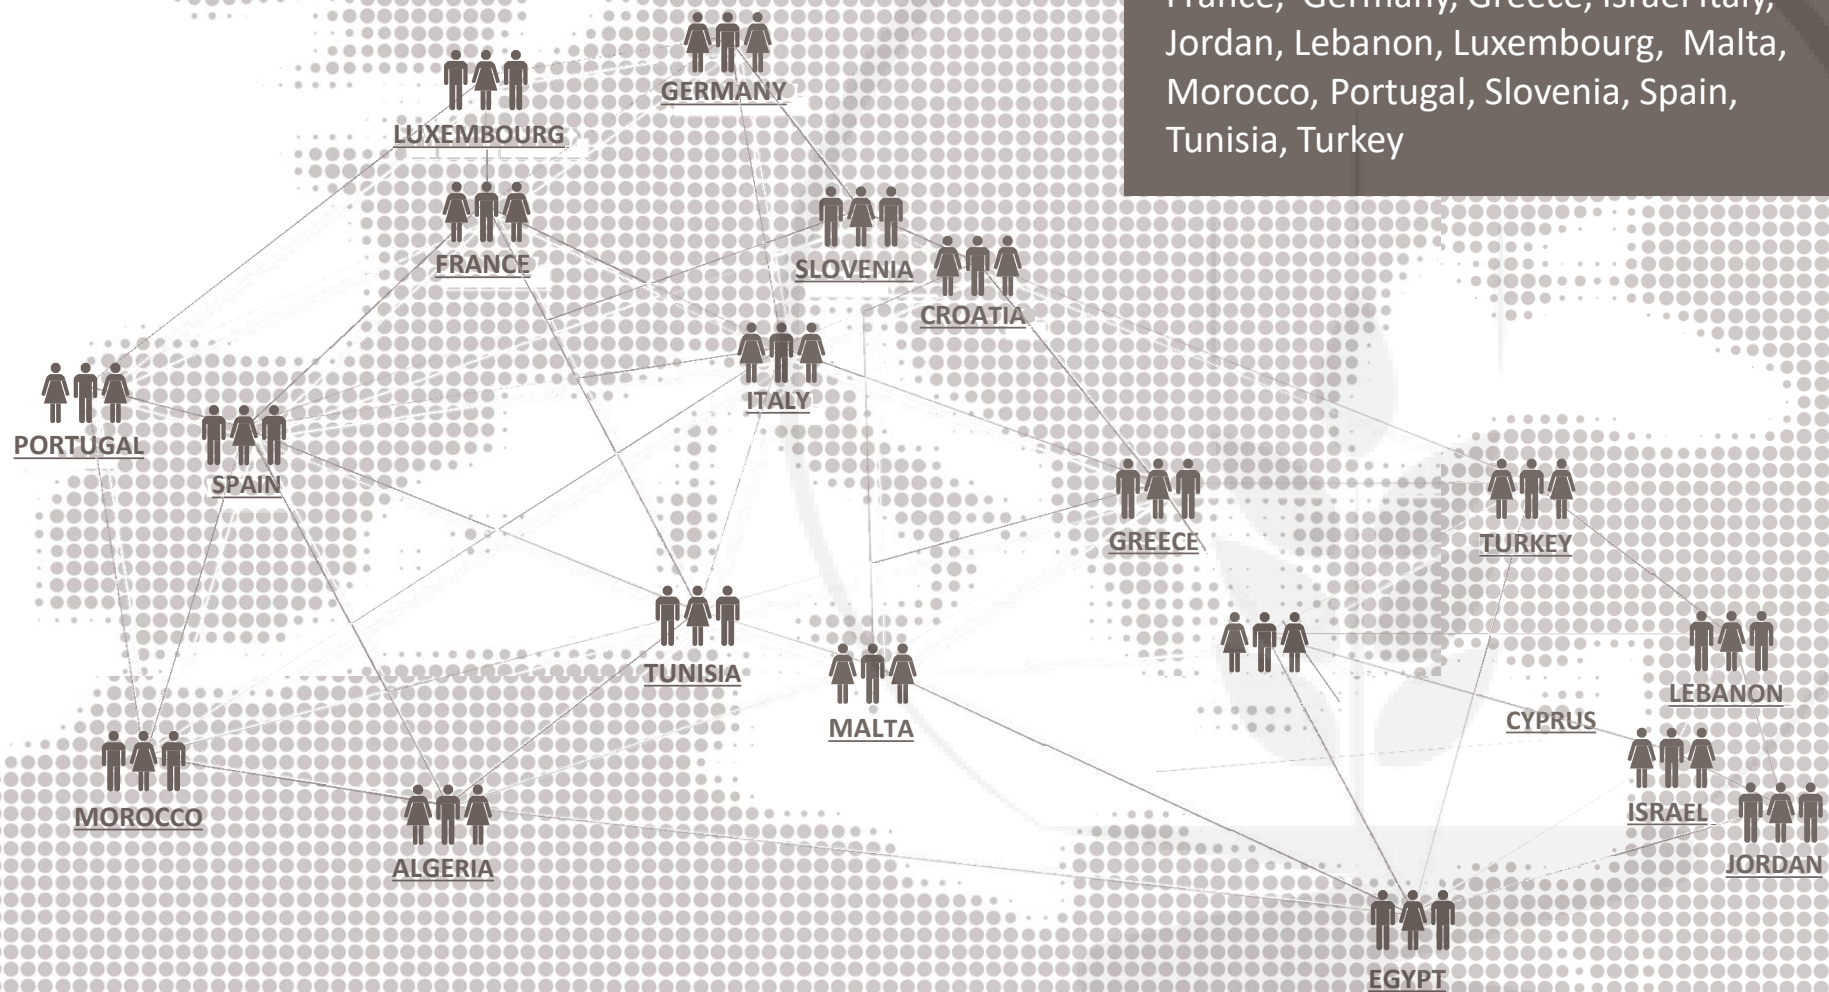

An article 185 initiative as the most suitable instrument to tackle global challenges of the Med region in an integrated way

- Equal footing
- Long-term commitment and orientation
- Avoiding fragmentation and duplications in R&I
- Focused on Research, Innovation and Adoption of innovation solutions
- Definition of a common and MED-wide 10-year Strategic Research and Innovation Agenda (2018-2028)
- Institutional relationships with MED stakeholders (end users, communities, enterprises, governments)

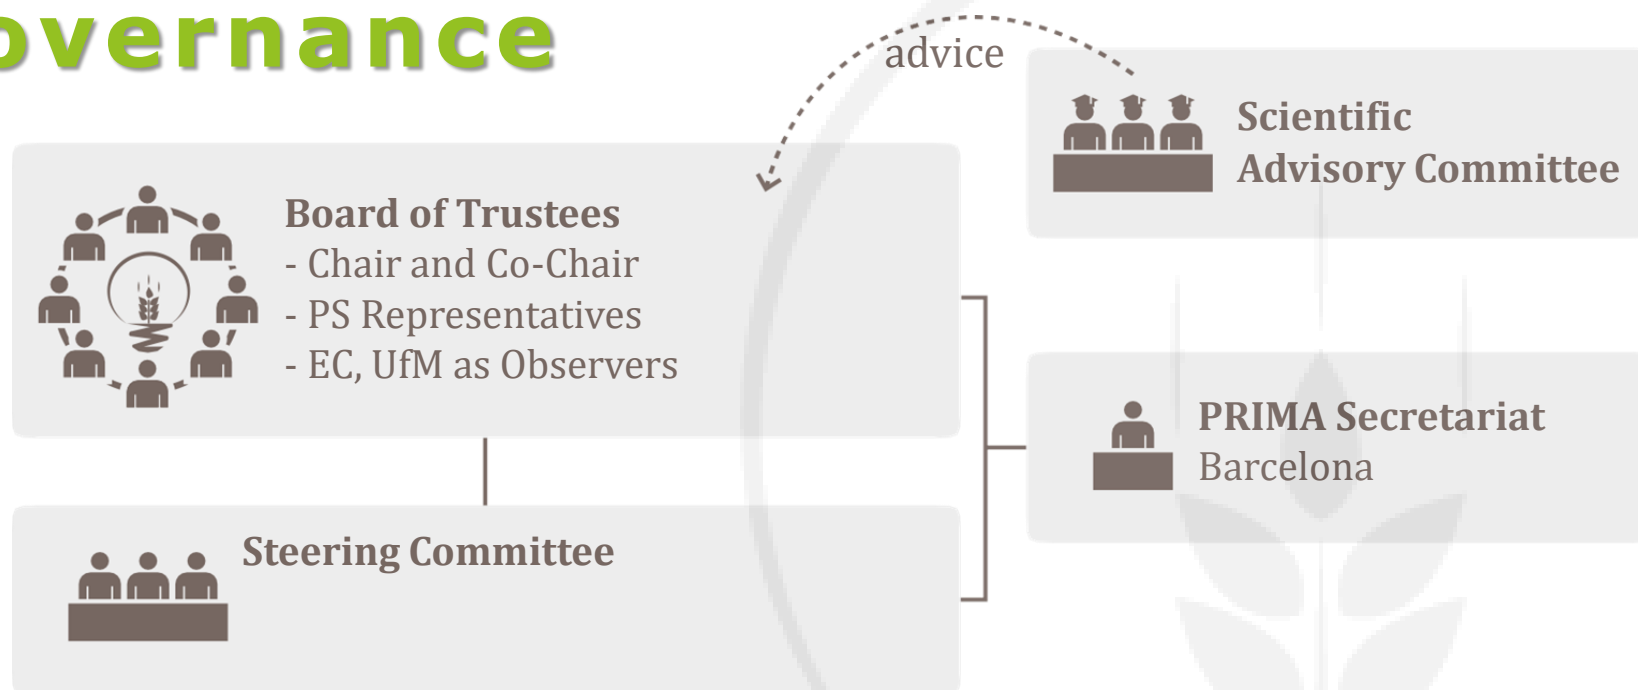

PRIMA
PARTNERSHIP FOR RESEARCH AND INNOVATION
IN THE MEDITERRANEAN AREA

PRIMA can currently count on the participation of **19 Participating States**, including: Algeria, Cyprus, Croatia, Egypt, France, Germany, Greece, Israel Italy, Jordan, Lebanon, Luxembourg, Malta, Morocco, Portugal, Slovenia, Spain, Tunisia, Turkey

Strategic Research and Innovation Agenda SRIA

The Strategic Research and Innovation Agenda

- sets the technical and scientific basis of the PRIMA Programme
- is the output of a process encompassing the collection of inputs from a wide range of sources, workshops, events involving experts and stakeholders from all sectors of society
- identifies three thematic areas to address

Three Main Thematic Areas

- **MANAGEMENT OF WATER**

Integrated and sustainable management of water for arid and semi-arid Mediterranean areas

- **FARMING SYSTEMS**

Sustainable farming systems under Mediterranean environmental constraints

- **AGRO-FOOD VALUE CHAIN**

Sustainable Mediterranean agro-food value chain for regional and local development

Water: Topic 1.1.1-2020 (IA) Implementing sustainable, integrated management of water resources in the Mediterranean, under climate change conditions.

Integration of Climate Change Adaptation and IWRM

Testing innovative demonstration cases to improve water use efficiency and water accounting

Improved **water allocation by policy makers** at the basin scale and beyond

Reliable water accounting to maximise economic and social welfare without compromising ecosystems

optimising farm irrigation management under water scarcity

calibration and validation of models and of current remote sensing techniques

Farming subtopic A) 1.2.1 (RIA)

Conservation and valorisation of local Animal Genetic Resources

Inventory and **genetic and/or genomic characterisation of local breeds**, well adapted to the Mediterranean environment

Deciphering the **links** between **genetic, genomic** and the phenotypic adaptive traits to **increase the resilience**

Characterize the final products of local breeds and **promote - high quality products /consumers**

Establishment of **networks or platforms** around the Mediterranean basin for genetic conservation and the promotion of adapted breeds

This topic is exclusively restricted to the Mediterranean local breeds

Develop and make available **decision-making tools** for the end users to select the most **appropriate breeds** according to the specificities of the production environment

DISCLAIMER Preliminary information, AWP has not been approved by European Commission yet

Farming subtopic B) (IA)

Alternative animal feeds

Projects should **capitalize on what has been done in the past** and propose **alternatives feed resources based on local agricultural production**

Project can use/propose **new crops** or species when well adapted to the local conditions

Evaluate the **impact** of using alternative animal feeds on **animal productivity, health, welfare** and on the **quality of the product**.

Analyse the **socio-economic impact** of the proposed alternatives animal feeds and **promotion of the adoption of these news feeds by the farms**

DISCLAIMER Preliminary information,
AWP has not been approved by
European Commission yet

Agro-food Topic 1.3.1 (IA) Valorising the health benefits of Traditional Mediterranean food products

Nutritional value of the developed food products should be at the centre of the process of valorisation of **Mediterranean food product**

focus on **food technologies to preserve the healthiness and quality** of these products.

Optimized **eco-friendly food processing** technologies and tools to preserve the original nutritional value and enrich the valuable bioactive contents.

- **Development of new value-added foods products/forms** from traditional Mediterranean diet with **proven health benefits**.
- Development of efficient **national/regional nutritional strategies**

Develop innovative food products based on consumer-centred re-design of traditional Mediterranean recipes and ingredients, to satisfy consumers' demands in terms of healthiness, convenience, ease of preparation, acceptability, and use of ingredients exploiting the local biodiversity also as an element of cultural identity.

Topic 1.4.1 (IA) Demonstrating benefits of the Water-Ecosystem-Food Nexus approach in delivering optimal economic development, achieving high level of environmental protection and ensuring fair access to natural resources.

Proposals should **test good practices** for resource allocation and assess the economic, environmental and social implications of various choices

Conditions and opportunities for **effective engagement of the private sector** should be analysed and the ways to promote market sustainable solutions should be demonstrated

Projects should **propose concrete site-specific solutions** to potential barriers for successful application, including the cost of transfer of research results to stakeholders (e.g. farmers), and social and behavioural barriers

Proposals should **ensure the involvement of a critical mass of stakeholders** involved from policy makers, public authorities, farmers and other end users through a multiactor approach

conceive an operational project demonstrating the economic, social and environmental benefit from the Water-Ecosystem-Food Nexus approach at specific sites characterized by diverse climate conditions and socio-economic development.

PRIMA Objectives

The overall objective of the PRIMA programme is to build research and innovation capacities and to develop knowledge and common innovative solutions for agro-food systems, to make them sustainable, and for integrated water provision and management in the Mediterranean area, to make those systems and that provision and management more climate resilient, efficient, cost-effective and environmentally and socially sustainable, and to contribute to solving water scarcity, food security, nutrition, health, well-being and migration problems upstream.

The scope of research and innovation is complex, multidisciplinary and requires a multi-actor and cross-border approach.

The scale of the research and innovation necessary to address the challenges in the Mediterranean area is immense due to the systemic character of the major bottlenecks.

A collaborative approach among PRIMA Participating States (PS) can help to increase the required scale and scope, by pooling financial and intellectual resources.
