

MAKING RESEARCH RESULTS WORK FOR SOCIETY

Commission Recommendation on Code of practice on standardisation

Ioannis Sagias, Deputy Head of Unit

*Valorisation Policies & IPR Unit
Directorate-Generale for Research & Innovation*

European Commission

Knowledge valorisation: Mapping of actors, channels, and tools

European Research Area Action 7: Upgrade EU guidance for a better knowledge valorisation

Guiding principles for knowledge valorisation

provide a common reference to improve knowledge valorisation in the EU

Adopted as Council Recommendation on 2 December 2022

(EU) 2022/2415

Code of practice on the management of intellectual assets for knowledge valorisation

Code of practice on standardisation for knowledge valorisation

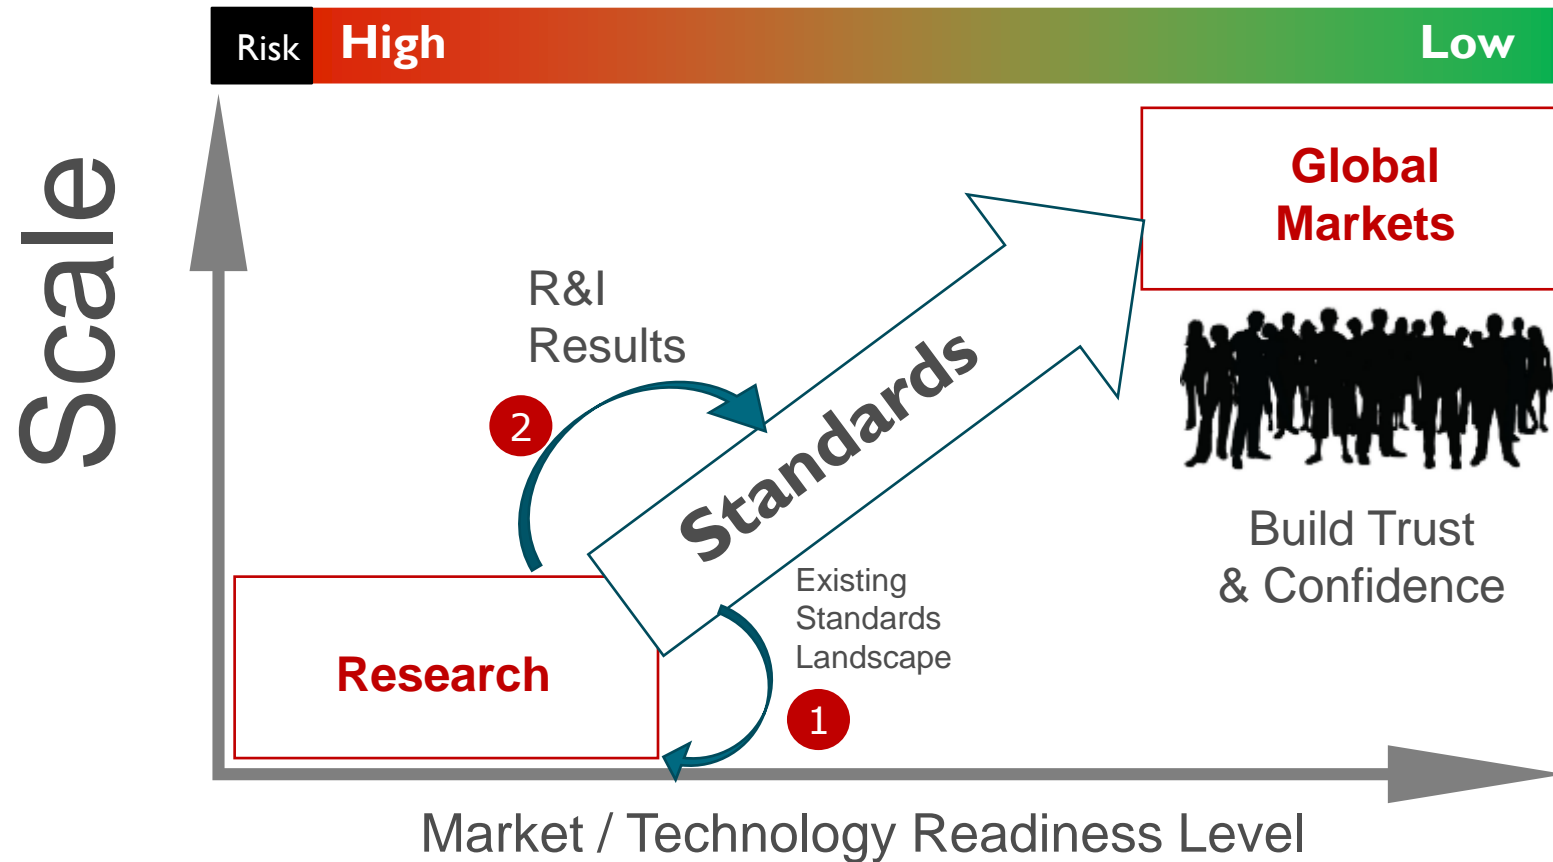

Adopted as Commission Recommendations on 1 March 2023

(EU) 2023/499 and (EU) 2023/498

Why Integrate Standards, Research & Innovation

Bridge the Innovation Gap for Impact at Global Scale

Standards De-risk & Accelerate Technology-Product-Service Development, Adoption & Scaling

Definition of standard

technical specification

for *voluntary* application

adopted by a *recognised
standardisation body*

used as a *rule, guideline* or
definition

for a repeatable way of doing
something

Standardisation Strategy – the key actions

No alignment with political priorities

- Enhance Annual WP to reflect standardisation urgencies
- High-Level Forum to assist in prioritisation
- Review of all harmonised European standards against contribution to zero-emission economy and Europe's Digital Decade
- EU excellence hub and Chief Standardisation Officer

Good governance concerns

- Proposal for amendment → introducing good governance principles for ESOs
- Call to ESOs to modernise their governance
- Announce the Evaluation of Regulation 1025/2012
- MS peer review process on SME-friendly conditions

Geopolitics of standards

- Coordination of EU MS/NSB positions
- International standards for a free, open and secure global internet
- EU funding (Horizon, NICI), pilots in African countries and EU Neighbourhood
- Continuation of concerted actions with like-minded partners (TTC, Japan)

Unexploited potential of pre-normative work

- Code of Practice for researchers
- Standardisation Booster

Lack of experts

- Targeted actions on education and skills:
 - Horizon Europe/COST
 - EU Academy Platform/e-learning material
 - Standardisation University Days

MAKING RESEARCH RESULTS WORK FOR SOCIETY

Objectives, development
and content of the code

Objective of the code of practice on standardisation

Supporting our stakeholders to valorise their R&I results through standardisation by

- Contributing to the synchronisation and systemic integration of R&I and standardisation
- Providing guidance to researchers and innovators

Recommendations addressed at 3 main stakeholder groups

Based on the lessons learnt and success factors from examples of Horizon 2020 projects

Higher education
institutions and research
& innovation
organisations

Project partners

Policy and stakeholders

Inclusiveness – all types of projects with a wide range of TRLs

Higher education institutions and research and innovation organisations

- Developing a standardisation policy, self-standing or as part of an IP or research results valorisation policy
- Considering standardisation activities in the career development plans
- Providing for education and training on standardisation
- Making Technology Transfer Offices fit for standardisation
- Developing an indicator and evaluation system

Project partners

- Analyses of the landscape
- Common understanding and strategic position on standardisation
- Involving partners with expertise in making standardisation a tangible part of the project
- Investing in stakeholder engagement
- Realistic outputs, outcomes and impacts and combined qualitative and quantitative reporting
- Ensuring sustainability beyond the project duration

Policy and stakeholders

- Promoting by Member States standardisation as means of knowledge valorisation
- Examining by Member States the standardisation needs of startups and SMEs in R&I projects
- Standards Development Organisation to develop their service portfolios to align with R&I activities
- Use by Member States national support in relation to standardisation as a R&I valorisation tool

Standardisation examples

Standardisation supporting the dissemination of healthcare solutions for older persons

Standardisation aspects were given great attention in the project REACH2020 (Responsive Engagement of the Elderly Promoting Activity and Customized Healthcare) with the aim to enhance the uptake and dissemination of the developed technical 'tools' that

[Read more](#)

How standardisation helps applying innovative research results to reduce the numbers of diagnostic errors in healthcare

The goal of the Horizon 2020 project SPIDIA4P (Standardisation of generic Pre-analytical Procedures for In vitro Diagnostics for Personalised Medicine) was the improvement of the global healthcare systems by driving the standardisation of pre-analytical

MAKING RESEARCH RESULTS WORK FOR SOCIETY

Further initiatives on standardisation

Standardisation Booster

Objectives

General Objective: To test a “standardisation booster” programme to facilitate European results in standardisation

Obj.1 EU Community

Obj.2 Serve H2020/HE Projects

Obj.3 New standards development

Obj.4 Uptake of new technologies

Policy, Standards, and Synergies

- 3 impact reports
- 1 sustainability report
- 25+ MoUs signed
- 100+ measurable liaisons H2020-HE Projects/SDOs
- 500+ impacted standards

Training Academy

The HSbooster.eu Programme

- 1,000+ H2020/HE projects served overall
- 1 continuously open call for recruiting 250+ External standardisation Experts (EPE)
- 250+ Automated services delivered
- 250+ Proactive services delivered
- 5 open calls, assigning 500 Premium services
- 6 training packages, 1,500+ trainees

EAG

Community

- 2,000+ engaged community members
- 250+ EPE members
- 10 EAG members
- 3,000+ DB of H2020/HE projects with promising standardisation paths

Reports

- Interim & final call monitoring reports
- Service matrix
- Lessons learned & service report
- Initial, intermediate and final impact reports
- Sustainability report

Pan-European Synergies

Outreach

- 14 Webinars
- 3 Workshops
- 2 Yearly “Impact Events”
- 24 newsletters
- 8 Press Releases
- 36 Professional Videos
- Visibility at 10+ third party events

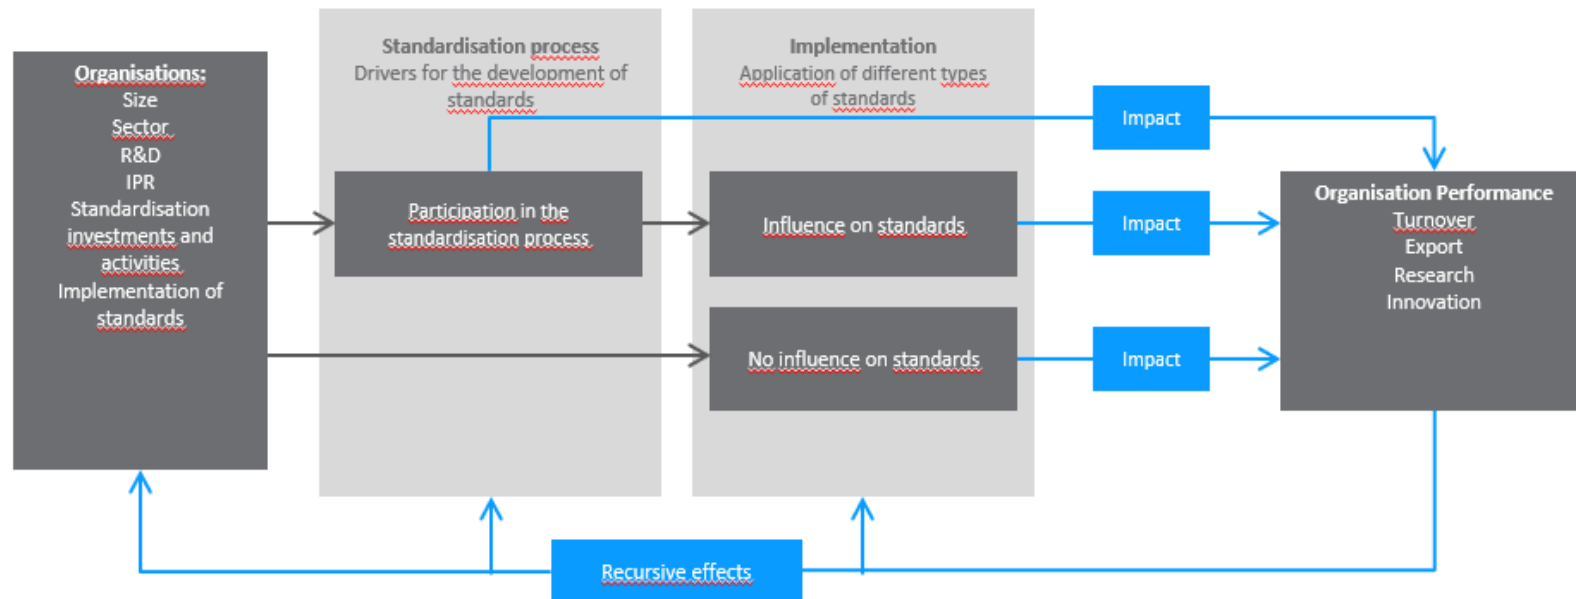

HSbooster.eu reports and policy briefs can contribute to the EU Standardisation ecosystem providing live information on the activities, status and impact of projects in the standardisation field.

European
Commission

European Standardisation Panel Survey

- Understanding **current activities and future trends of companies regarding R&I based standardization**
- **Complementary to the Code of practice** to understand industry's demand for standards
- Survey **launched on 14 October**

MAKING RESEARCH RESULTS WORK FOR SOCIETY

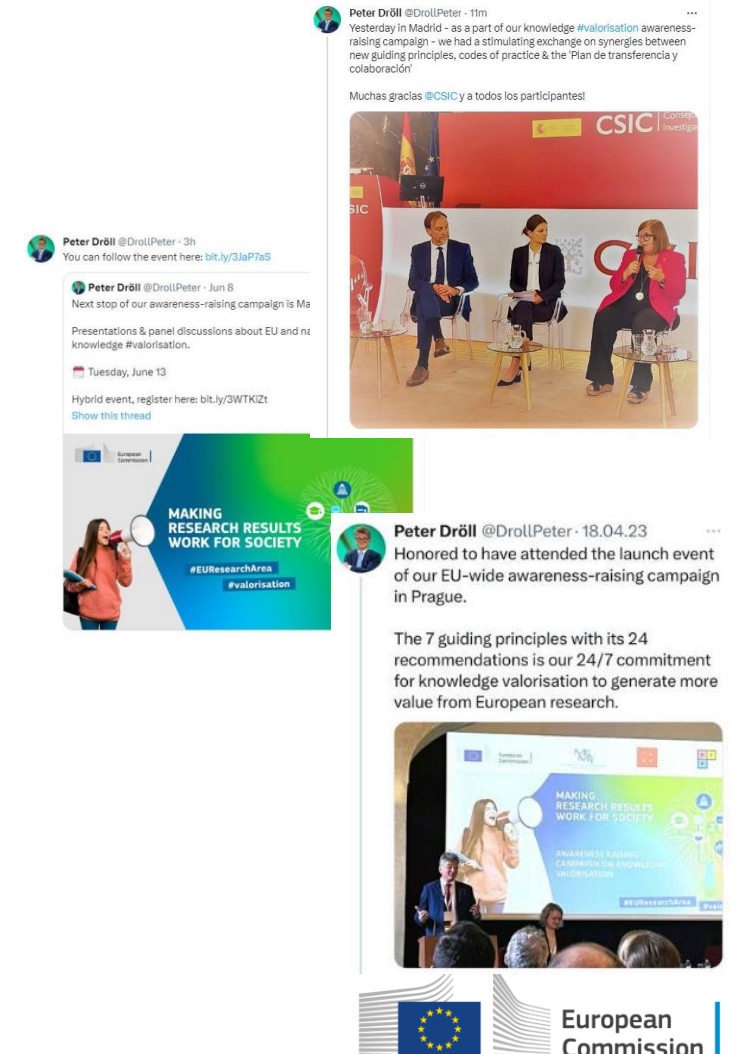

Activities supporting the
implementation of
knowledge valorisation

Awareness raising campaign

- Launched on 18 April 2023 in Prague
- 6 national events (Czechia, Lithuania, Spain, Slovenia, Austria, Portugal)
 - trainings provided by IP Helpdesk and CEN-CENELEC
- 8 upcoming events in 2024

Follow the road show: [Join the European Union campaign to boost knowledge valorisation \(europa.eu\)](https://europa.eu)

Awareness raising campaign – Conference in Brussels

- **Conference ‘Making research results work for society’**
 - **631 participants**
 - **6 sessions** including a panel discussion on the code of practice on intellectual assets management and a session on standardisation
 - **CEN-CENELEC Award for Standards&Innovation Ceremony**
 - **Bottom-up approach**, inspiring others by sharing ideas, best practices and discussing challenges and how to overcome them
 - **Recordings will be published** on the [Knowledge Valorisation Platform](#)

Mutual Learning Exercise

Knowledge Valorisation - Focus on skills, intersectoral cooperation and incentive systems

18 participating countries

Topics:

- **‘Incentives and skills’**
 - a) Policy and legal context, governance and funding (Madrid, 24/25 Jan. 2024)
 - b) Research talent (Vienna, 19/20 June 2023)
- **‘Intermediaries’** (Stockholm, 20/21 Sept. 2023)
- **‘Networks and Processes’** (Helsinki, 23/24 Nov. 2023)
- **‘Intellectual Assets Management’** (cross-cutting)

EU Knowledge Valorisation Platform

Best practices

Get inspired by policies and practices of other valorisation actors and share your own example

Engagement

Follow the community of practice on smart management of intellectual assets

Thematic focus

Read about latest developments and interesting aspects of EU knowledge valorisation

Guidance

Learn all about the brand-new EU Guiding Principles for Knowledge Valorisation that engage all actors in the research and innovation eco-system.

Visit the platform and submit your best practice:
[Knowledge Valorisation Platform \(europa.eu\)](https://europa.eu)

New Codes of Practice

- Code of Practice on **Industry – Academia co-creation**
 - Creating an enabling environment for industry-academia co-creation
 - Effective knowledge valorisation in industry-academia co-creation
- Code of Practice on **Citizens engagement**
 - Managing citizens engagement and maximising Impact
 - Building an Enabling environment for citizens engagement to benefit society

Thank you
